### color changing tips --

- to change colors, work st as usual until 2 loops remain on hook. use the new color to draw through the last 2 loops. leave a 4" tail in the new color for weaving in later.

- be sure to cross the old and new yarns to further secure, when changing colors,

- when changing colors in a space, such as the corners, be sure to catch the "leg" that's created when drawing through the first 2 loops on the hook with the new color.
